## Stop new coal plants by 2020 and taxpayer subsidies for fossil fuels, UN chief says

By [Peter Hannam](#)

May 15, 2019 – 11.41am

Construction of new coal-fired power plants should cease by next year and countries should introduce a price on carbon emissions in a bid to prevent "catastrophic" impacts from climate change, the United Nations Secretary General Antonio Guterres says.

# Climate Vulnerability for Indonesia

- Risiko banjir meningkat 5X pada skenario 3°C dibandingkan 1,5°C
- Pada skenario 2,4 jumlah cyclone (badai tropis) kategori 4 akan meningkat 80% dan kategori 5 meningkat 120%
