

Job Vacancy

Position: Transport Decarbonization Project Coordinator

About IESR

Institute for Essential Services Reform (IESR) is a think-tank in the field of energy and environment. IESR aims at the transformation into a low-carbon energy system by advocating a public policy that rests on data-driven and scientific studies, conducting capacity development assistance, and establishing strategic partnerships with non-governmental actors.

IESR is seeking an experienced, motivated, and dynamic individual to lead the transport decarbonization project.

About the Project

The project supports Indonesia's endeavor to decarbonize the transport sector, focusing on land transport. This project aims to develop transport decarbonization pathways and a roadmap and identify strategies to meet 2050 net-zero emissions for Indonesia.

Duties and Responsibilities

- Coordinate the project implementation and implementing planned activities.
- Maintain communication and coordination with all project partners and beneficiaries.
- Build relationships with government, CSO partners, and communicate transport decarbonization strategy to the partners.
- Collecting data and information on various industries to support research and modeling.
- Conduct research on options of technologies available to support transport decarbonization.
- Organize meetings and events.
- Participation in stakeholder dialogues and advocacy liaise with civil society, policymakers, business and government stakeholders, and multilateral actors active in the transport sector.
- Support IESR's research, developing knowledge products, and internal and external communication.
- Prepare presentations
- Prepare progress reports and project reports.

Requirement

- A minimum master's degree from relevant disciplines such as civil, environmental, and chemical engineering from reputable universities, and knowledge of economics or finance is an advantage.
- A minimum of 2 years of working experience.
- Able to complete the contract within the prescribed time.
- Strong managerial skills and possess project management tools.

Competencies

- Good understanding of energy and transportation relation
- Good knowledge of the transportation landscape in Indonesia
- Ability to conduct research and write the result.
- Ability to communicate and collaborate effectively with diverse partners and job functions.
- Excellent organizational and interpersonal skills.
- Ability to multitask, and work independently and collaboratively to meet deadlines.
- Proficient in English both written and verbal.
- Excellent in MS Office software and other software tools for the transport system
- Understanding scientific data collection and data analysis tool is an advantage.
- Professional and a can-do attitude.

Duration

Two years with a possible contract extension. Immediate starting in April 2023

Salary

Salary and benefits are competitive and will be commensurate with the candidate's qualifications and experiences.

Interested and qualified applicants could send:

- CV and IESR application form;
- A cover letter with a brief paragraph addressing the selection criteria;
- Related portfolio(s) (if you have one)
- Send your application and supporting documents to hrd@iesr.or.id at the latest on 31 March 2023
