Bidding Evaluation Result for
Expert Modeler for Indonesia's Net-Zero Industrial Roadmap Aligned
with the 1.5°C Paris Agreement Target

To all bid participants and all that may have concerns,

We would like to extend our sincere gratitude to all institutions and individuals who expressed interest in IESR's Request for Proposal (RFP) for the Expert Modeler for Indonesia's Net-Zero Industrial Roadmap Aligned with the 1.5°C Paris Agreement Target. The RFP, issued on May 20, 2025, remained open for submissions until June 11, 2025, following a one-time extension. During this period, we received a single proposal from PT Inovasi Dinamika Pratama. Given the urgency of the study and the tight timeline, we proceeded with an evaluation process, which included a clarification meeting and subsequent negotiations based on our internal budget estimates.

Following a thorough evaluation process and in accordance with IESR's internal procedures, we are pleased to announce that **PT Inovasi Dinamika Pratama** has met all qualifications and requirements outlined in the RFP. As a result, they have been selected as the successful bidder to carry out the study for the **Expert Modeler for Indonesia's Net-Zero Industrial Roadmap Aligned with the 1.5°C Paris Agreement Target**. This announcement reflects IESR's commitment to ensuring transparency and accountability throughout the bidding process.

With best regards,
