

**Tender Evaluation Results for
Study on Green Hydrogen Production Potential: Kalimantan and Papua**
Jakarta, September 3rd, 2025

To all bid participants and all others that may have concerns,

We extend our heartfelt gratitude to all institutions who have expressed their interests and submitted proposals for the **Study on Green Hydrogen Production Potential: Kalimantan and Papua**, organized by the Institute for Essential Services Reform (IESR) under the Green Energy Transition Indonesia (GETI) project.

As part of the selection process, we received bids from five (5) different institutions by July 28th, 2025.

We would like to inform you that the evaluation process has been completed in accordance with the protocol set forth in the RFP. Following a thorough review by our team, we are pleased to announce the selected winner for this activity:

Winner : Pusat Studi Energi Universitas Gadjah Mada (PSE UGM)
Total Score : 63.33/100

We commend **PSE UGM** for their outstanding proposal, which effectively supports the project's objectives and demonstrates alignment in the work plan, schedule, and team composition.

To all participants, we appreciate your dedication and effort. Your submissions enriched the selection process, and we encourage you to continue contributing in this field. IESR remains committed to fostering collaboration and excellence. We look forward to future endeavors together.

This notification is issued as part of IESR's commitment to encouraging openness and accountability in the bidding process.

Thank you for being a part of this exciting journey.

With best regards,

Signed by:
